## Congressman Higgins Gives Opinion

Will Work For Woman's Suffrage When the Women of the State Declare by Vote That They Want It—A Serious Matter to Trifle With.

(Special to The Bulletin.)

Washington, March 15.—Representative Higgins has received from Mrs. William T. Hinks of Bridgeport, president of the Connecticut Woman Suffrage association, a lengthy letter on the subject of equal suffrage, and giving a list of 23 prominent men in the state who favor votes for women. She quotes that Mr. Higgins, who is a member of the house committee on the judiciary, write to the association his views after the hearing, which was set for Wednesday of this week.

Mr. Higgins, in answering, wrote as follows: "Dear Madam: I am in receipt of your letter of recent date, calling my attention to a hearing before a committee of the house of representatives of which I am a member and requesting me both to attend that hearing and express my views to you after the hearing. I did attend and I have no hesitancy at all in discussing the matter with you very frankly, though you will permit me to say that I have concluded the question so far as I am concerned."

"It is a subject that I have given long and thoughtful consideration to. Years ago I listened with much interest to forceful arguments on the subject of woman's suffrage by Susan B. Anthony. My views have not met with much change since that time."

"There is no inherent right in any one to vote. The states prescribe the qualifications of voters. It is a high privilege. Its non-exercise ought to work its forfeiture. No amendment to the federal constitution is at all necessary to secure that privilege to women. Where the women in this country have really wanted the ballot they have secured it. There is no reason why if the franchise is extended to women on municipal questions that it ought not to be extended on all questions. If women are to vote on any other questions than school questions let them vote on all questions."

"Let the different states submit the question of woman voting to the women of that state. Let the women decide the question for themselves and if a majority of the women of a state declare for suffrage, by all means give it to them."

"The privilege of voting ought to be too great a privilege to confer on a large body of our citizenship when they do not want it, are indifferent to it, or are violently opposed to accepting the burden which the responsibility entails."

"I am considering the matter in all seriousness, and while I will not favor an amendment to the federal constitution to accomplish the purpose of your organization, I will as a citizen of Connecticut join in any movement to give the full suffrage to women of my state when at a legal election held for that purpose a majority of the women themselves indicate by their votes that they want the privilege."

"Hoping that the above complies with your request, I am

"Very truly yours,"

"EDWIN W. HIGGINS."

WILLIAMS PRIZE READING AT SLATER HALL.

Three Classes Represented Among the Contestants.

In spite of the stormy weather there was a good sized audience in Slater hall Friday evening for the Williams prize reading, open to the girls of the Academy. REILLY IS LOOKING OUT FOR JODON

Later Discouraged on His Fourth Trip To Appear Before Committee

(Special to The Bulletin.)

Washington, March 15.—The contested elections case of Jodon V. Higgins has to have been taken up again by House elections committee No. 3 yesterday, but they lacked a quorum and the case was over much to the disappointment of Mr. Jodon who was present. He says he has made four trips from his Connecticut home to appear before this committee and thinks there is a lack of interest in the case among the members.

He will not come down to attend the next meeting, his interests will be looked after by Mr. Reilly.

BEAUTIFUL HATS

Noticed in the Display Made at Friday's Openings.

The rain can't last forever! This thought encouraged those whom the storm prevented from attending the openings Friday.

The few who braved the deluge and gale saw, among the other attractive hat models, a linen-colored chip walking hat, with crown band of shaded maline in gun tints, its trimming a paradise aigret.

A white straw derby sailor with facing of black straw piped with primrose and black velvet. The trimming was high loops of black mirror velvet and a pert little cockade ornament.

Effective indeed was a helmet shape in shaded king blue, Killarney green and primrose with tailored bow of king blue across the front and natural aigret in green and blue.

Note what the Bulletin advertisers have to say today about the Spring openings!
